Drawn from the College’s overall Strategic Plan, in particular institutional priority number five, which establishes that the College “will develop and maintain a campus that is aesthetically pleasing, educationally functional, safe, and comfortable……………” this document provides focus for the College-wide effort to create a safe and secure campus environment over the years 2008-2010.

Mission: The College will establish policies and practices that provide for a safe and secure campus environment for students, staff, and the community.

The priorities in this plan derive directly from the initiatives in the Strategic Plan, as referenced below.

Priority 1: Assess safety and security strengths and needs at the College.

   A. Conduct a comprehensive College review (including current policies and practices).
   B. Conduct a peer/associate assessment (peers being similarly situated colleges and associates being agencies/offices with which Wayne has agreements on safety-security matters, i.e. Orrville Police, Fire, etc.).

Priority 2: Develop a College emergency response plan.

   A. Establish a College emergency response team.
   B. Establish situation response protocol (who does what, when, etc.).
   C. Engage the University’s Office of Health & Safety in the development of response plan.

Priority 3: Establish a communication strategy/protocol for special situations.

   A. Conduct review of current practices.
   B. Establish new strategy/protocol based on the review.

Priority 4: Develop appropriate training for College personnel.

   A. Identify training needs
   B. Schedule and conduct training and drills

Priority 5: Establish assessment strategy and review schedule for safety and security plan and activities.
