265000 PARAPROFESSIONAL EDUCATION – INTERVENTION SPECIALIST

NOTES

- a. It is strongly recommended that you have recent high school algebra. If algebra skills need updating, you should see an advisor for assistance. Note that updating these skills will extend the time required to complete the program. Contact the program coordinator or your academic advisor for more details.
- b. It is strongly recommended that 3150:101 Chemistry for Everyone be taken prior to 3100:265 Introductory Human Physiology. Contact the program coordinator or your academic advisor for more details.
- c. 5100:200/220 are foundation courses in education. They can be taken simultaneously with 5500:245 & 5610:225. These must be taken before all remaining professional education courses.

Dr. Shawn Watters, Coordinator, C-216
330-684-8788 • sw94@uakron.edu

Paraprofessionals are education assistants who have special training to work in public and private schools. They provide instructional support to individuals and small groups of students, assist teachers with modifications and accommodations for students, assist with the implementation of behavior plans, and monitor students within a variety of educational settings. In addition, they are critical members of an educational team who collect data on students for progress monitoring and collaborate with teachers to ensure educational services are consistent across settings and personnel.

The Associate of Applied Science degree in Paraprofessional Education candidates will study how children develop and learn, how to support students with diverse learning needs within their school settings, the historical foundation of education, and how to effectively collaborate with teachers and other related services personnel. Field observations, service learning projects, and a field experience similar to student teaching offer students meaningful opportunities to integrate and apply classroom lessons.

The associate degree provides immediate employability, making it possible to work in a school setting while pursuing additional educational options. The curriculum enhances employability by integrating classroom learning with meaningful practicum experiences. The program serves as a pathway to the Bachelor's degree program for students interested in obtaining licensure as an Intervention Specialist.

ADMISSION REQUIREMENTS

Admission to the Associate of Applied Science degree in Paraprofessional Education is available to students who have been admitted to The University of Akron Wayne College.

Wayne College admission requirements include:

1. High School or GED diploma;
2. All students (provisional and standard) pursuing an associate degree will be directly admitted to Wayne College.

Admission requirements for the Paraprofessional Education associate degree include:

1. 3300:111 English Composition I (3);
2. 7600:105 Introduction to Public Speaking (3), or 7600:106 Effective Oral Communication (3);
3. A Natural Science course (3);
4. A Social Science course (3);
5. Current BCI and FBI checks;
6. Apply to the Paraprofessional Education program via online application and recommendation form.

Upon successful completion of the AAS degree and a GPA of 2.5 or better with a grade of C or better in required education (5000) courses, the student is eligible to apply for admission to the College of Education through the Intercollege Transfer (ICT) process. Students must make an appointment with an advisor through the Student Services Office at Wayne College to initiate an Intercollege Transfer.
