COMPLETE YOUR DEGREE

The University of Akron Wayne College Campus has added the following bachelor's degrees. These degrees can be completed on the Wayne Campus!

Business Administration in Marketing

The Bachelor of Business Administration in Marketing gives students a traditional business skill set, as well as a cutting edge, data driven approach to marketing research, branding, promotion and marketing strategy. With a focus on application, students work with local companies to learn social media and digital marketing.

Social Work

The social work program prepares students for a competent and effective generalist social work practice with small class sizes and individual attention. The program offers students the opportunity to become a licensed professional. Social workers often serve individuals, families, groups and communities, with a focus on helping under served and oppressed populations.

Primary Inclusive Teacher Preparation (PITP)

The core curriculum combines theory and practice to prepare students for a dual licensure program in P-5 general education and intervention specialist, primarily in public or private schools.

Strategic and Organizational Communication

The program prepares students to enter a competitive marketplace where communication, creative problem-solving and critical thinking are in high demand. Courses equip students with the communication skills and knowledge to effectively lead and collaborate. Graduates will possess a range of skills that will enable them to succeed in organizations, businesses, relationships, public campaigns, advocacy and the law.

Nursing

This program combines science and the humanities to teach students the art of nursing and give them the opportunity to change lives. The School of Nursing advances excellence in student learning, collaborative clinical service, community service and scholarship.
